

MOBILETTE® VARIO MAXX

SETTING CLEANING STANDARDS

CLEAN. SAFE. EFFICIENT.

ONE NEW MODULAR CONCEPT, ENDLESS POSSIBILITIES

As a service company you are committed to deliver quality services to your customer. A quality result requires safe and effective cleaning equipment. The new Mobilette® Vario maxx trolley range can be customized to meet both your

and your customers' specific needs. Regardless of the required size and the standard cleaning applications, Mobilette® Vario maxx assures infinite possibilities to combine the necessary cleaning accessories.

CUSTOMER SATISFACTION

Structured cleaning processes with Mobilette® Vario maxx make it easy to deliver the service your customers expect and deserve.

- ▲ Modular concept to deliver outstanding cleanliness in all areas
- ▲ Clean surfaces quickly and efficiently
- ▲ Minimal noise and disruption of customers operating

EMPLOYEE SAFETY

The ergonomic design of Mobilette® Vario maxx creates an environment where employees can feel safe and perform at their best.

- ▲ Safe and well organized storage of chemicals
- ▲ Securely attached Cleaning Tools
- ▲ Safe and ergonomic working procedures

OPERATIONAL EFFICIENCY

Keep your operation running and manage the various cleaning tasks with Mobilette® Vario maxx.

- ▲ Mobilette® Vario maxx design allows maximum efficiency, i.e. accessibility from both sides
- ▲ Ideal for all wet cleaning procedures in line with each application area
- ▲ Superior tool organization

MODULARITY COMES IN ATTRACTIVE DESIGN

Mobilette® VARIO maxx is adaptable to the cleaning needs of the specific segment, the application area or the size of the premises.

ONE CONCEPT - ENDLESS POSSIBILITIES

Mobilette® Vario maxx can be adapted to every cleaning requirement. As a modular system, it can be assembled to fit into small elevators or the available closet space. The trolley is supplied in the standard colors of grey, yellow, blue and red. On special request it can be customized to the desired Corporate Design reflecting color and company branding.

OPTIMIZES THE CLEANING PROCESSES

Mobilette® Vario maxx organizes the implementation of a cleaning process. The concept respects the smallest details with precision and consequence. Click 'n Stick connections allow easy fitting of a variety of accessories. Creation of the desired design of the top part as well as the inside can be modified to your specific needs.

DESIGN - CLEANING WITH SHAPE

Mobilette® Vario maxx combines highest functionality with modern design. The innovative bow design provides a dynamic shape with aesthetic value.

ERGONOMICS

Mobilette® Vario maxx supports your employees with features that will make work easier. Creating a work environment of comfort and ease increases productivity and efficiency.

MAXIMIZE THE MODULARITY

Accessory parts such as drawers, buckets, hooks and clips can be adjusted to the preferred position of the user. This flexibility prevents injuries and enhances worker safety. Rails with integrated stopping function prevent drawers from falling off the trolley. The following accessory parts can be positioned at the preferred height:

- ▲ Stackable drawers, tablets & mop boxes
- ▲ Buckets
- ▲ Hook and shaft clips

ERGONOMIC DESIGN - ALL IN ONE HANDS

The handle was designed to include the most recent know-how on ergonomic working procedures. Different possible hand positions allow the user to choose the best suitable setting.

MOBILITY - PRESSURE IS ON THE WHEELS

The secret of Mobilette® Vario maxx lies in the new ergo wheel system. They reduce the noise level while moving the trolley and ensure easy maneuverability even in tight areas. They can rotate 360° and are constructed from materials that do not damage floors. The wheels include a thread guard to prevent dirt and fibers from entering the roller bearing.

EFFICIENCY MADE EASY

Mobilette® Vario maxx sets new standards in efficiency. The modular concept with its modern and functional design helps to optimize and accelerate your cleaning process.

MOBILITY

A unique feature is the patented decoupling mechanism of the waste module. For professional touch free waste handling - simply use the foot pedal to easily de-connect and to transport the waste compartment to the trash disposal. The waste unit can be easily reconnected to the main module.

HYGIENE - CLEANLINESS STARTS ON THE TROLLEY

A clean trolley indicates cleaning competence and is the business card of professional cleaning. Mobilette® Vario maxx is easy to clean due to even surfaces and rounded edges.

AN INVESTMENT THAT PAYS OFF

The sturdy construction of the Mobilette® Vario maxx has been tested under long term stress conditions to guarantee high resilience and durability. Production and assembling in Germany guarantee an outstanding quality. Throughout the manufacturing process Ecolab has followed strict ecological standards:

- ▲ Mono-material production
- ▲ The used materials are nonhazardous to the environment
- ▲ The used materials are recyclable

APPLICATION AREA

Mobilette® Vario maxx can be adapted to the specific cleaning needs of each segment. Independent of the desired system - Mobilette® Vario maxx offers the right answer.

OFFICE CLEANING

A clean working environment enhances the productivity, health and work experience of employees. Mobilette® Vario maxx simplifies a well organized and structured cleaning:

- ▲ Small, tight and mobile even in corridors and elevators
- ▲ Ergo wheels ensure high maneuverability
- ▲ Additional machines and cleaning equipment can be easily attached

PUBLIC AREA CLEANING

Ensuring that public areas are clean is a big responsibility. Cleanliness in these areas create thousands of impressions on people every day. Here are examples how Mobilette® Vario maxx simplifies cleaning procedures:

- ▲ Flexible options for all wet mopping procedures
- ▲ High amount of space and customized Click 'n Stick connections
- ▲ Brand recognition through corporate color and customer logo

HEALTHCARE CLEANING

A Healthcare cleaning company needs to ensure appropriate methods to achieve the highest possible hygiene standards. The Mobilette® Vario maxx Healthguard supports these customer requirements:

- ▲ High hygiene standards are assured through color coded cleaning equipment and touch free waste management
- ▲ Lockable covers & doors increase patient safety and prevent theft
- ▲ De-connectable module for waste or mop transportation
