Healthcare

Good healthcare starts with good hygiene

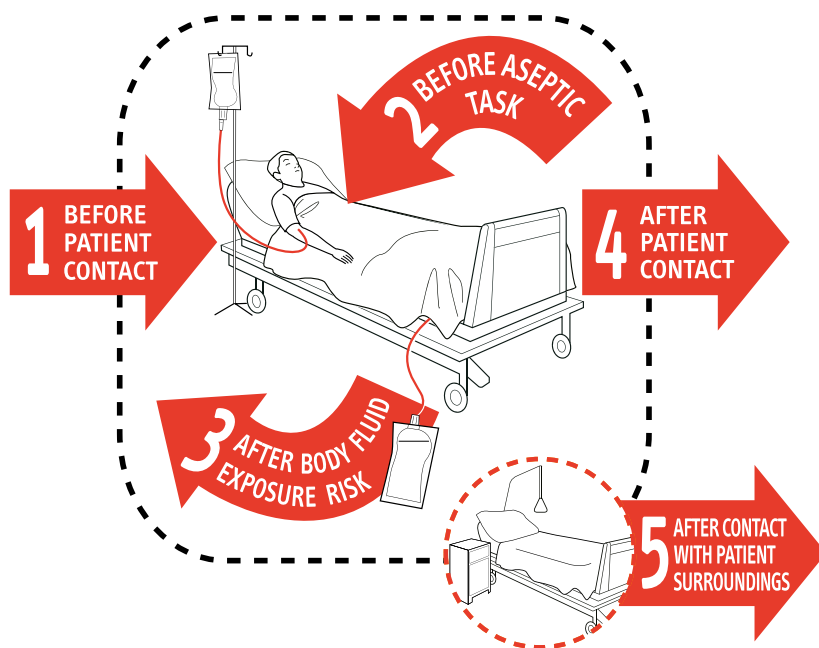

Helping you to choose the right product

When taking care of patients, visitors and staff, high standards of hygiene are crucial. Whether you're a nursing home, hospital or clinic, we have the products in our range to make excellent hygiene standards easier.

Hygiene insights to help equip your healthcare facilities

The World Health Organization recommends five steps for good hand hygiene:

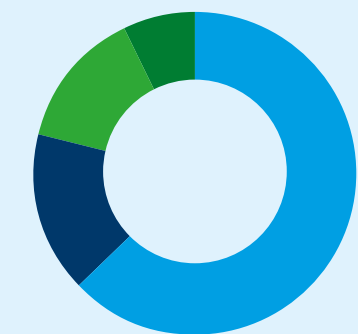

Patients who see their attendant care for their hands before a visit feel well looked after. Patients who see their attendant care for their hands only after visiting, can feel like the attendant cares more for themselves.

Controlling risks, inspiring behavior

We all need reminders to protect ourselves and others. Conveniently placed hand hygiene dispensers have been found to steadily encourage, increase, and sustain compliance well after introduction, and are considered the best compliance enhancers. Tork Skincare Dispensers have a modern, high-gloss design, are easily cleaned and are key-locked for security and hygiene. Our hassle-free dispensers are a vital part of any hand hygiene solution and proof that good, clean design inspires good, clean behavior.

Contribution to long-term hand hygiene compliance

Wiping and cleaning

The easy choice for the best result

Helping you to choose the right product

Whether you run a restaurant kitchen or an industrial production line, we understand that every second matters. Tork wipes, cloths and dispensers are designed to get the job done with maximum efficiency – keeping your business running smoothly.

What works best for your business?

We develop our product ranges to match the different needs of our customers.

Find the right product for your workplace based on these three simple questions:

What task do you need to do?

Do you need a wiper or cloth for dry or wet wiping, for cleaning to remove oil and grease, or for polishing?

What type of working space or workstation do you use?

Are you at a workstation where you and others need equal access to a dispenser, or do you need to move wipes around to carry out different tasks?

How often does this task get done, and by how many people at once?

Do several people use wipers or cloths during the day, or does one person occasionally need to use them?

What we offer

We've got a comprehensive range of specialist wipes and cloths, each designed to perform specific tasks. Add one of our dispensers to create an efficient system that controls consumption and cost.

Task		
Wiping Mopping up spills, soaking up liquids and picking up dirt and dust with paper.	Cleaning Removing dirt and stains from surfaces, machines or tools with cloths that are dry or used together with water, solvents or detergents.	Polishing Creating a protected and shiny surface with the help of a cloth that applies polish onto the surface and is then rubbed to obtain a good finish.

The details that power industry performance

Turn small details into big wins

When it comes to continuous improvement, every second counts no matter where it comes from. Last year, the European manufacturing industry invested €140 Billion in new technology such as robotics, Internet of Things and automation*. Before you invest in complex solutions, make sure you have the basic details in place.

Let's look at the details that powers performance.

Performance starts with your workers

When it comes to improving performance, it's not always easy to make operational initiatives stick in practice. Turn plans into reality by addressing the needs of your workforce and supporting them with simple and flexible wiping and cleaning products to make change that lasts.

Cleaning is caring

Maintenance is not just about caring for your machines, it's about caring for your workers. Research shows that maintenance activities are a common source of accidents**. Getting the basics right can have a big impact on your overall safety performance.

Proven productivity advantages of Tork industrial wipes

Save valuable time and effort with faster cleaning

Use less solvent, saving money and reducing solvent exposure

No matter the task – with our products you can be confident you will get the job done

Did you know?

Because of the complexity of Maintenance, Repair, Overhaul (MRO) tasks, aircraft technicians must do their wiping and cleaning manually. By switching from rags to our industrial wipes, we're helping aircrafts get back in the air faster.

Making it easy to create a great experience

Helping you to choose the right product

It's not enough just to provide satisfactory service – you need to create a great experience to keep reviews positive and customers coming through the door.

When doing this, we know the details matter, and we can help you get them right. Tork is used by more Horeca customers in Europe than any other tissue brand. No matter the needs of your establishment, we've got something for you.

What works best for your business?

We develop our product ranges to match the different needs of our customers.

Find the right product for your restaurant based on your service style:

Self-service.....80

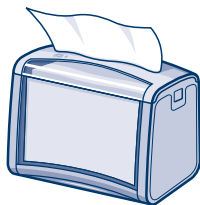

If customers serve themselves in your restaurant, things need to happen fast, and napkins need to always be at hand, especially during peak times. Refilling, waste management and storage need to be effortless, easy, and convenient.

Full-service.....81

If you run a restaurant with table service, you know that the total experience is what keeps customers coming back. This means the design, color, and quality feel of your table setting is one of many important things that creates your restaurant's ambiance.

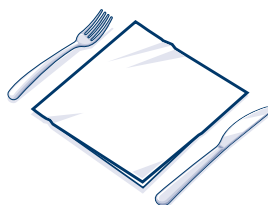

What we offer

Tork Xpressnap® napkin dispensing system

- Reduces napkin usage by at least 25% guaranteed*
- Improves hygiene – only touch what you use

Match your dish with the perfect color

Did you know that colors can have an important impact not only on how guests perceive a restaurant, but also on how they experience the taste and aroma of a dish? Pairing your food with the right color is a great opportunity to bring every course to life, ultimately improving the entire guest experience.

To help our customers create unique dining experiences, we teamed up with food stylist and chef Linda Lundgren, whose clients range from high-end restaurants to the international food industry and gastronomic magazines. Linda composed a course to go with each of the four latest napkin premium range colors for Tork LinStyle®.

Use our color wheel, based on our LinStyle® napkin range for inspiration on how to use colors to enhance flavors and fulfill the potential of every plate you create.

Below are examples of how the napkin color combinations work with the delicious dishes:

"Aqua blue vitalizes yellows and decreases saltiness, letting you create a fresh new take on a classic like the steak frites."

"Adding a coral napkin helps bring out the sweetness and ripeness you need for a really rich dessert finale."
